

DV5000™

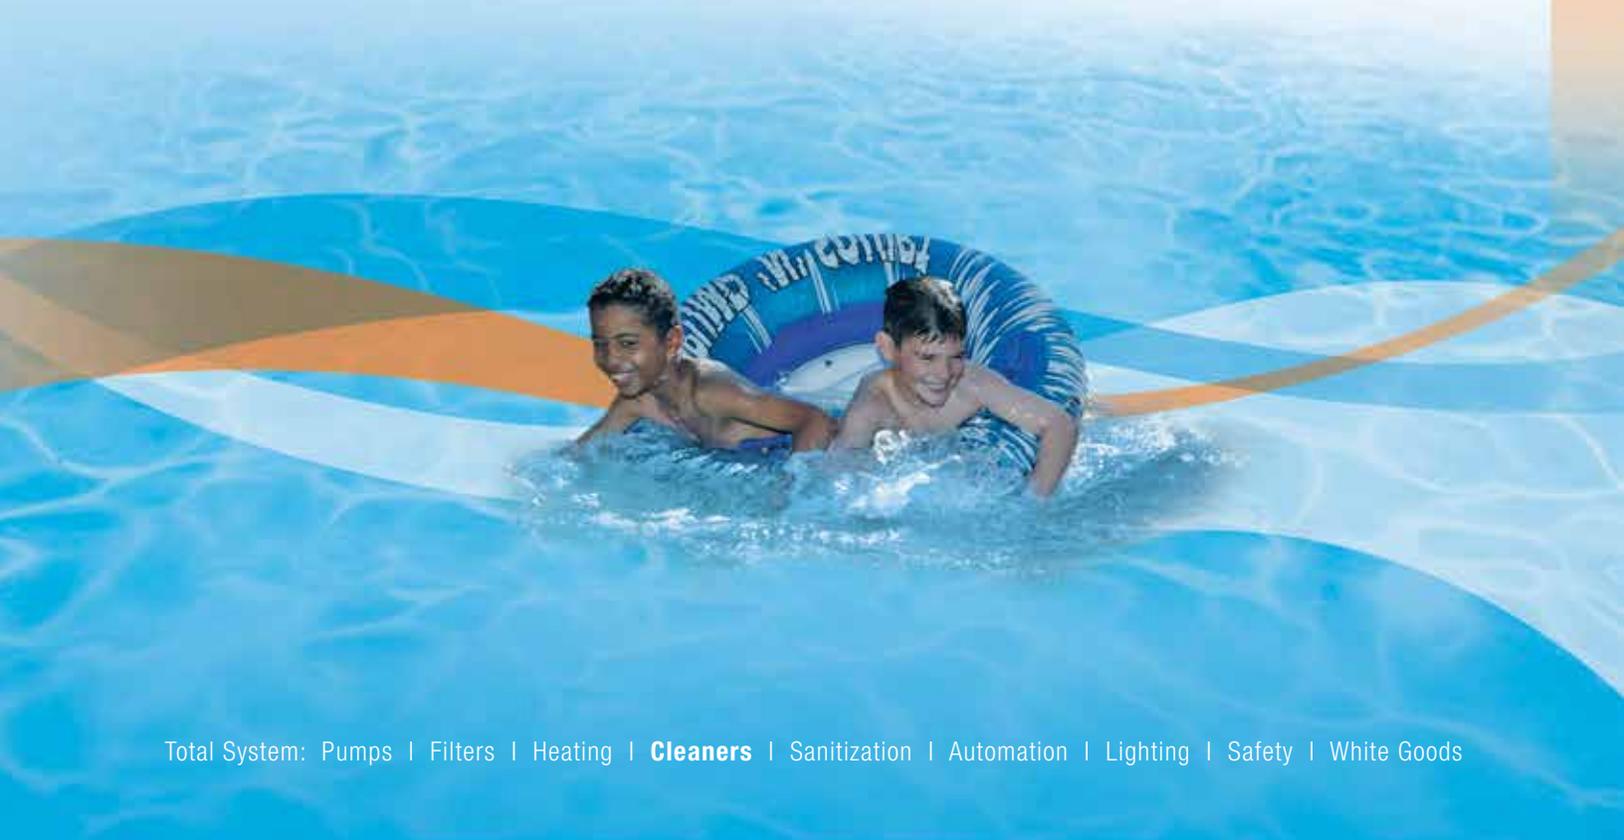

AUTOMATIC POOL CLEANER

New Look. Improved Performance.

The DV5000 automatic pool cleaner devours debris in a single pass. It quietly and efficiently propels itself through the water cleaning up dirt, debris, twigs and more. No dirt can escape this pool predator.

CLEANERS

Cleaning your pool just got easier.

DV5000™ automatic pool cleaner is backed by the most trusted name in pool equipment, Hayward. The DV5000 vacuums up dirt and debris regardless of your pool's shape, size or surface for a more energy-efficient random cleaning pattern.

- Powered by your existing filtration equipment
- Cleans your pool's floor and walls – automatically
- One moving part ensures years of dependable service
- No tools necessary and installs in less than 10 minutes
- Pulls in dirt from 3 intake ports
- Swivel foot pad for easy navigation out of tight corners
- Energy efficient. No additional electricity or pumps needed
- Includes 40 feet of hose to cover pools up to 20' x 40'
- Optional leaf basket and skimmer vacuum plate

MODEL DV5000

Automatic pool
cleaner

Swivel foot pad for easy navigation in and out of tight corners.

Additional side port intakes pick up dirt and debris in a single pass.

Improved diaphragm technology provides years of quiet and efficient operation.

Optional Skimmer Vacuum Plate ensures that your pool automatically alternates between filtering and cleaning.

For pools with a dedicated suction line, Hayward recommends the Vac Lock™. It's a safety mechanism with a spring action cover, to hold the hose and close the suction opening when not in use.
